LUNERA HID LED LAMP

LED Replacement for High Intensity Discharge Lamps [20,000lm / 15,000lm / 9,000lm / 4,500lm] E39 Mogul-Base - Vertical Mount - Line Driven

Description

The Lunera HID LED lamp is a Line Driven (ballast bypassed) LED replacement for Metal Halide (MH) and High Pressure Sodium (HPS) lamps with an E39 mogul base. This lamp replaces $400W \sim 175W$ MH and HPS lamps in lighting applications such as High Bay, Low Bay and Parking Garages.

Lunera HID LED lamps feature a significantly lower energy consumption than conventional High Intensity Discharge (HID) lamps. These lamps deliver over 60% energy savings and have a rated life of 50,000 hours - 3 times longer than that of HID lamps. Its built-in universal driver allows lamp operation at 120V \sim 277V.

The Lunera HID LED lamp is available in a range of color temperatures including 3500K, 4000K and 5000K. Lamp configuration options include a 10% uplight for the 9,000 and 4,500 lumen products. It delivers consistent light levels across its long life, which results in a high quality lighting experience for the building's occupants.

- Replaces 400W ~ 175W High Intensity Discharge (MH and HPS) lamps
- Line Driven (ballast bypassed) lamp; supports 120V ~ 277V
- Works well in enclosed fixtures
- Up to 20,000, 15,000, 9,000 and 4,500 lumens fixture delivered light output
- Yields 60%-80% energy savings
- >80 CRI
- CCT 3500K, 4000K and 5000K
- Supports E39/EX39 mogul base HID sockets
- Thermal IQ to support ambient temperatures up to 150°F
- Uplight Option with 10% uplight illumination for 9,000 and 4,500 lumen products (VSU)

9,000lm 4,500lm VS, VSU

Photometry

Optical data is based on performance of bare lamps.

Polar Candela Distribution [20,000lm / 15,000lm] - High Bay

Polar Candela Distribution [9,000lm / 4,500lm] - Low Bay

Intended Applications

The Lunera HID LED lamp is designed to replace Metal Halide (MH) and High Pressure Sodium (HPS) lamps in the following compatible applications:

Wattage Compatibilities	Sockets	Power Source	Mount
Lunera HID LED Mogul (E39) Base 400W -70W	E39 / EX39 Mogul	120V- 277V Line Voltage	Vertical Mount Fixture Type High Bay Low Bay

Application Notes

The Lunera HID LED lamp can be used in open and fully enclosed fixtures.

This device is NOT rated for use with dimmers.

Contact Lunera for luminaire level IES files with high bay and low bay DLC referenced fixtures.

This lamp can be installed with 2-wire trailing-edge dimmers. Do NOT over-load the dimmer [Contact Lunera for more info.]

This product is NOT intended for use with emergency lighting or for emergency lighting.

Warranty will be voided if the product is installed into/with the following:

- Installed with leading edge and other incompatible dimmers
- Line Voltage above 277V (e.g. 280V, 347V, or 480V)
- LED Driver

Uplight version of this lamp is available for 9Klm and 4.5Klm.

Caution

Turn power off when installing this lamp.

Do NOT install this lamp into line voltage above 277VAC.

Product Dimensions

Measurements are exact. Dimensions are shown in millimeters and inches. Please contact your Lunera representative for other product dimensions.
